

Experiencing the comfort of a warm conversation with family and friends is vital for patient relaxation, but with limitations on visitors and personal device use, it can be difficult to stay in touch. Journey PX Connect delivers that comfort through an easy-to-use video conferencing tool run entirely through the patient room SMART TV and operated with a pillow speaker. No complicated downloads, no tablets to fumble with, and most important, no barriers between a patient making a personal connection with their loved ones.

## Easy To Use

- Run through patient room SMART TV, eliminating need for contagion-heavy smartphones or tablets
- Can be operated with easy-to-use pillow speaker

## Peace of Mind

- Journey PX software ensures conversations are encrypted and secure
- Receive call notifications, allowing connection with loved ones at any time
